

ONE CRAP RULES

Core Ruleset - a tiny 2d6 miniature wargame

YOU NEED: 3-5 miniatures per side | 2d6 | ruler | wound tokens | 1-3 objectives

WIN

Capture the objective or eliminate the enemy.

EACH TURN

1 PRIORITY > 2 MOVE > 3 SHOOT > 4 FIGHT > 5 END

1. PRIORITY

Both players roll 2d6. Highest chooses who goes first. Tie = player who went second last turn chooses.

2. MOVE

Each figure moves up to 3".

Move into 1" of an enemy = CHARGE. Charged figures cannot shoot.

3. SHOOT

Range = 6". Must see the target. Roll 2d6:

- **7 or 11** HIT! Target takes 1 Wound.
- **2, 3 or 12** BACKFIRE! Shooter cannot act next turn.
- **Everything else** Miss.

Cover: Target ignores the hit on 4+ on 1d6.

4. FIGHT

Figures touching or within 1" fight. Attacker rolls 2d6:

- **7 or 11** Defender takes 1 Wound.
- **2, 3 or 12** Attacker takes 1 Wound.
- **6 or 8** Both pushed 1" apart.
- **4, 5, 9 or 10** Locked in combat. Fight again next turn.

5. END

Check objectives.

A figure within 2" controls an objective if no enemy is within 2".

Hold the main objective for 2 consecutive turns = WIN.

SPICE - DOUBLES!

Whenever you roll doubles:

- **1-1 SNAKE EYES:** Disaster! Your figure falls back 2".
- **2-2 PANIC:** Closest friendly figure also falls back 2".
- **3-3 DUCK!:** No damage; immediately move 1" toward cover.
- **4-4 SECOND WIND:** Immediately move 2".
- **5-5 HERO!:** Take another Move, Shoot, or Fight action.
- **6-6 BOOM!:** Target is removed. Figures within 1" roll 1d6; on 1, take 1 Wound.

YO! - A BIT OF SPICE

Optional casino rules for One Crap Rules

RULE: Core results always happen first. Spice adds risk, rewards and table talk.

No Chip? No Yo.

THE CASINO CODE

Chips create choices - never paperwork. If a Spice rule slows the game down, skip it.

"PRESS!" "YO!" "HARD WAY!"

Risk a little. Laugh a lot. Keep rolling.
